

Rated Wall Assemblies Technical Bulletin

TB006

Category: EIFS

Keywords: EIFS, Rated Walls, ASTM E-119

Parex has tested its Standard EIF system in accordance with ASTM E 119 for 1, 2, and 3 hours on UL Design No. 419 on 1, 2, and 3 hour assemblies respectively. In no case did adding the Parex System to the assembly diminish its rating. It is established by testing that in principle adding the Parex system does not diminish the rating of the assembly. The tests were conducted at Omega Point Laboratories (Intertek), an independent third party laboratory (IAS TL-143).
