

PAREXUSA Panel Systems

For both new construction and renovation, Parex USA Panel Systems offer a tremendous range of design flexibility.

Panelization and Modular Construction has continued to grow in popularity in the Construction marketplace. Offering advantages in Quality Control and Time Savings, Parex USA Panel Systems incorporate code-compliant Continuous Insulation assemblies including Parex USA Air/ Water Resistive Barriers, and Thin Veneer Systems.

Parex USA Panel Systems offer many advantages including fast track project scheduling, integrated project delivery, increased Quality Control, and Value.

Finish options for Parex USA Panels include all the available finishes from the Parex USA family, including Aquasol and Standard DPR Finishes, Stone Finishes, Metallic Coatings, and also the designers choice of Thin Brick, Tile, or Thin Stone Veneers.

PPS-CI

Our PPS-CI utilizes our Parex USA WeatherSeal liquid applied water resistive barrier and EPS or XPS as continuous insulation to help meet the requirement of today's energy codes. Offering a panelized wall assembly with a code compliant Parex USA Ci cladding system. Optional detailing allows for drainage of incidental moisture.

Finishing options include all Parex USA Acrylic and Stone Finish options including DPR, Aquasol or Metallic Coating for a simulated metal panel look.

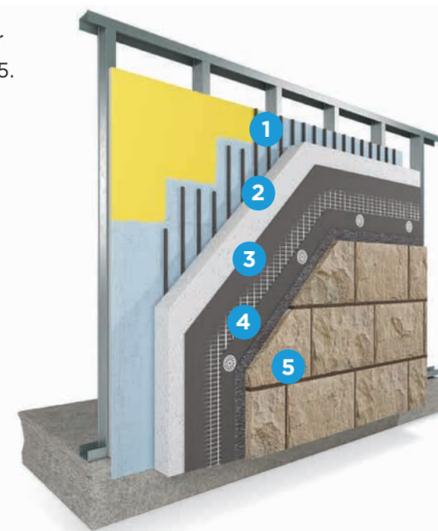

Warranty - Contact Parex USA

PPS- MVS CI

PPS- MVS -CI offers the same benefits as the PPS-CI panel assembly, but allows the option to include Thin, Thin Stone, or Tile veneers in a code compliant assembly including NFPA 285.

Warranty - Contact Parex USA

ICC 2562

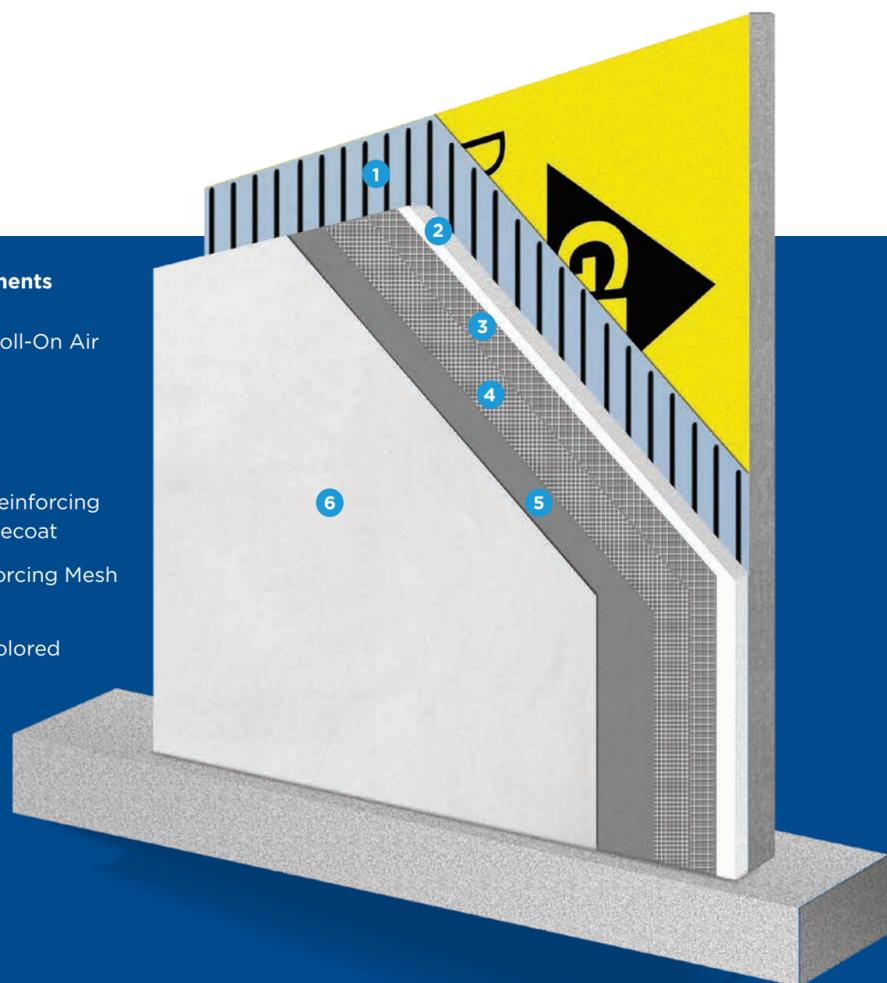

- 1 WeatherSeal Spray & Roll-On Air Water Barrier
- 2 Parex USA Adhesive
- 3 Continuous Insulation (EPS)
- 4 Intermediate Impact Reinforcing Mesh embedded in basecoat
- 5 Thin Brick, Thin Stone or Tile Veneer by Others

Parex USA PPS-CI Components

- 1 WeatherSeal Spray & Roll-On Air and Water Barrier
- 2 Parex USA Adhesive
- 3 Continuous Insulation
- 4 (Optional) Hi-Impact Reinforcing Mesh embedded in basecoat
- 5 Standard Impact Reinforcing Mesh embedded in basecoat
- 6 Parex USA Integrally Colored Textured Acrylic Finish

ICC ESR 2563**

PPS-AWB

PPS - AWB is a complete wall panel that includes Parex USA WeatherSeal liquid applied air and water resistive barrier. This panel allows the design professional the freedom to design with whatever exterior cladding they are so inclined but also have the confidence that the wall assembly is protected by a secondary air and water resistive barrier.

Warranty - Contact Parex USA

ICC ESR 2045

- 1 Parex USA Air/Water Resistive Barrier
